Yellow fever has made a vacancy in the office of the District Attorney for the Northern District of Mississippi, the Attorney General being lately notified that Thos. Walton died at Grenada. Walton was a Republican of prominence, being one of the reconstructed kind, having served during the war in the Confederate army, and afterwards in the Federal army, and was Aide-de-camp to General Longstreet. He was a candidate for Congress two years ago in the Holly Springs District of Mississippi, but was defeated by General Manning. He was a native of Central America, but the Secretary of State had nominated him as Minister to Central America, but the Senate refused to confirm him, and he had been District Attorney for that State.

Congress will undoubtedly make suitable appropriation to reward the commission for services so valuable to the country.
